RE: Final Corrective Measures Implementation Plan, SWMUs 6 (Former Oil Pit and Sludge Drying Bed) and 7 (Oily Waste Treatment Plant Sludge Drying Beds), Naval Station Mayport, Facility ID# 16-8626008, USEPA ID #FL9 170 024 260, Mayport, Florida (Tetra Tech, June 18, 2012)

Dear Mr. Syme:

I have reviewed the subject document which was dated June 18, 2012 and was received on June 19, 2012. This report was prepared under Task Order Number 0033. The report states that "The objective of this Corrective Measures Implementation Plan (CMIP) is to ensure the corrective measures selected in the Statement of Basis (SB) are implemented and maintained for SWMUs 6 and 7 at Naval Station Mayport."

All Florida Department of Environmental Protection comments to previous versions of this CMIP have been addressed in this final document. Based on that, I am in concurrence with the corrective measures chosen by the Navy for this site and with their description within the CMIP.

Thank you for the opportunity to review this document. If you require additional clarification or other assistance, please feel free to contact me at 850/245-8999.

Sincerely,

John Winters, P.G.
Remedial Project Manager
